

AN INVITING ENTRY WAY, distinguished by red tumbled brick walls and black-iron gates, leads to the welcoming, sustainable community of Milner Heights. Old-world architectural details and charming boulevards blend beautifully with the professional landscaping, walking paths, and community pond. Bordering an environmental reserve and neighbourhood greenway network, residents enjoy added privacy and a close connection to nature right at their doorstep. Well-planned design and natural features define this exceptional community and enhance the experience of everyday living.
